Vale of Evesham School

A specialist school for cognition and learning - making inclusion in the classroom

1. STATEMENT OF INTENT

The Governors of Advance Trust Schools are committed to the health and safety of staff, pupils and visitors, and recognise their responsibility under the Health and Safety at Work etc. Act (1974), so far as is reasonably practicable, to:

- a) provide safe systems of work, plant and equipment;
- b) provide for the safe use, handling, storage and transport of articles and substances;
- c) provide such information, instruction, training and supervision as is necessary for staff and pupils to undertake their work safely;
- d) provide a safe place of work with safe means of access and egress for all persons using the premises;
- e) provide a safe and healthy working environment with adequate welfare arrangements;
- f) provide for the health and safety of persons not employed by the school, but who may be affected by its activities.
- g) encourage all staff to take reasonable care for their own health and safety and to co-operate with the management of the school in the carrying out of their statutory duty;
- h) require all staff to report through the appropriate channels, any problem, defect or hazard likely to lead to a lack of safe or healthy conditions for themselves or others.

The Governors recognise the need to consult staff on matters of health and safety and will recognise the right of the staff to appoint Safety Representatives, through their recognised trade unions or professional associations. The Governors will accommodate the establishment of a Health & Safety Committee, on which the staff Health and Safety Representative, and other staff, may serve.

No individual member of staff shall be required to undertake specific responsibility for any health and safety function without having first been consulted.

The Governors recognise that it may on occasions be necessary to seek advice on specialist matters pertaining to health and safety and will consult the Health and Safety Co-ordinator of Worcestershire County Council Directorate of Children's Services or such other persons as may be necessary.

The Governors recognise the need to ensure that sufficient funds are reserved for the inspection and maintenance of those items of premises and equipment where financial responsibility has been delegated to them.

Legal Framework

This policy has due regard to statutory legislation including, but not limited to, the following:

- Health and Safety at Work etc. Act 1974
- Workplace (Health, Safety and Welfare) Regulations 1992
- The Management of Health and Safety at Work Regulations 1999 (& 2006 amendment)
- The Control of Substances Hazardous to Health (COSHH) Regulations 2002
- The Construction (Design and Management) Regulations 2015
- The Manual Handling Operations Regulations 1992
- The Provision and Use of Work Equipment Regulations 1998

- The Lifting Operations Lifting Equipment Regulations 1998 (LOLER)
- The Display Screen Equipment Regulations 1992 (amended 2002)
- Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013

This policy has due regard to national guidance including, but not limited to, the following:

- [DfE 'Health and safety: advice on legal duties and powers' 2014](#)
- DfE 'Health and safety for school children' 2015
- [DfE 'Keeping children safe in education' 2016](#)
- DfE (2017) 'Safe storage and disposal of hazardous materials and chemicals'
- HSE 'Sensible health and safety management in schools' 2014
- [ESFA 'Managing asbestos in your school' 2017](#)
- [Public Health England 'Health Protection in Schools and other Childcare Facilities 2017'](#)

This policy should be used in conjunction with other school policies, procedures and documents as necessary (including, but not limited to):

- Asbestos Management Plan
- COSHH Risk Assessments
- Educational Visits Policy
- Emergency Management Plan
- Fire Risk Assessment
- Fire Procedure
- First Aid Policy
- Residential Fire Procedure
- Lone Working Policy
- Lockdown Procedure
- Manual Handling Policy
- Medications Policy
- Minibus Policy
- Personal Emergency Evacuation Plans
- PPI Policy
- Water Testing/Risk Assessment

Signed: _____ Headteacher Date: _____

Signed: _____ Chair of Governing Body Date: _____

2. THE ORGANISATION - RESPONSIBILITIES

2.1 Advance Trust:

- a) has overall responsibility as employer, for all aspects of health and safety of employees, pupils and other persons at schools within the Trust (under sections 2 and 3 of the Health and Safety at Work etc. Act 1974).
- b) has responsibility for appointing competent principal contractors where building or plant maintenance work is done.
- c) has responsibility for appointing a competent person to project manage those works which fall within the scope of the Construction (Design and Management) Regulations 2015, in which case this will be the responsibility of the Governing Body.

2.2 The Governing Body, through the Headteacher, is responsible for:

- a) ensuring that the school's safety policy is implemented, monitored and regularly reviewed and revised as necessary.
- b) ensuring that sufficient funds are reserved for meeting their responsibilities for Health and Safety, in particular for the maintenance of those items of premises and equipment for which they have financial responsibility.
- c) monitoring the (health and safety) need for building maintenance in the school and implementing repairs as necessary.
- d) advising the Advance Trust Board of structural defects that could adversely affect the health and safety of staff, pupils and other persons.
- e) the safe condition, storage and maintenance of equipment, vehicles and plant at the school, and ensuring that such equipment can be used safely in the normal running of the school.
- f) ensuring that the premises, the means of access and exit, and any plant or substance on the premises are safe and without risks to health.
- g) ensuring that safety rules concerning the use of premises and equipment are displayed at appropriate locations in the school and are enforced.
- h) the adoption of safe working practices by staff and pupils, and by contractors on site.
- i) acting to deal with potential hazards to health and safety, liaising where appropriate with representatives of the County Council - namely Clive Werrett (01905 846102) under the H&S SLA for the Trust, together with Place Partnership (Vale) and P R Associates (Kingfisher, Newbridge & Riversides) and other relevant organisations.

2.3 The Headteacher is responsible for:

- a) the implementation of the school safety policy.
- b) advising the Governing body of the need to review the school safety policy.
- c) the day to day responsibility for health and safety in the school.
- d) ensuring that risk assessments are carried out in accordance with the Management of Health and Safety at Work Regulations 1999 in all areas of significant risk.

- e) ensuring that staff receive appropriate health and safety training.
- f) ensuring that the requirements of any external H&S Audits and Inspections are met.
- g) ensuring that all problems or defects affecting the health and safety of staff, pupils or other persons in the school are dealt with.
- h) notifying the Advance Trust Board of Directors of any serious accidents to pupils or **any** accidents to staff or other persons and any 'near miss' situations, in accordance with the procedures laid down.
- i) notifying the Advance Trust Board of Directors of any hazards or problems affecting the health, safety or welfare of staff, pupils or others that cannot be resolved by appropriate local action.
- j) emergency procedures, including evacuation in case of fire or bomb threats.
- k) ensuring that adequate provision is made for the administration of First Aid.
- l) ensuring that all new material on health and safety matters, supplied by the LA or the Health and Safety Executive, is brought to the attention of any relevant persons promptly.
- m) facilitating the meeting of a School Safety Committee, if it is requested by staff or approved trade union safety representatives, and for attending such meetings.
- n) consultation with approved trade union safety representatives on any matters affecting the health, safety or welfare of any members of staff and for facilitating the carrying out of their duties, including safety inspections and attendance at training courses.

2.4 Head of Care (Residential setting only) / Business/Office Managers are responsible for:

- a) maintenance and oversight of first aid equipment and materials (e.g. restocking of First Aid boxes in line with latest HSE guidance) and controlling and maintaining any other First Aid supplies as may be kept separately.
- b) keeping of pupil accident book, staff/visitor accident book and reporting of accidents to the HSE as appropriate.
- c) arranging for emergency assistance (i.e. calling an ambulance) when necessary.

2.4 Heads of Department / Subject Leaders are responsible for:

- a) all matters of health and safety in their department or subject area.
- b) bringing to the notice of the Headteacher /School Safety Officer any problems or defects affecting the health, safety or welfare of staff, pupils or other persons in their faculty, department or subject area.
- c) having a working knowledge of regulations, guidance materials and codes of practice in their subject areas.
- d) producing a departmental / subject safety policy statement together with risk assessments and revising as necessary.

- e) ensuring that staff have received adequate training on health and safety aspects of their specialist areas (especially where use of potentially hazardous equipment or substances is undertaken).
- f) ensuring that necessary (where hazardous conditions cannot be eliminated) personal protective equipment (i.e. eye protection or protective clothing) is provided and kept well maintained.
- g) ensuring that any risks specific to their area of work are adequately assessed (e.g. risk assessments for the use of tools or equipment, COSHH assessments for the use of hazardous substances).
- h) ensuring that relevant safety signs and notices are displayed (e.g. signs requiring use of eye protection, *restricting use of teacher only machines to named individuals*, positions of gas, water or electrical isolators etc.).

2.6 Other Teaching Staff, Support Staff and Technicians are responsible for:

- a) ensuring that they are familiar with and comply with the school's Health and Safety Policy and any risk assessments relevant to the activity being undertaken.
- b) reporting any defects or problems affecting the health and safety of themselves, their pupils, other staff or any other person, through their Head of Department or Subject Leader to the Headteacher or School Safety Officer (as appropriate).
- c) co-operating with their employer (*Advance Trust*) to enable them to comply with the requirements of the Health and Safety at Work etc. Act 1974.

2.7 The Caretaker is responsible for:

- a) ensuring that he/she is familiar with and complies with the school safety policy, and any other specific policies relevant to the role, e.g. manual handling., lone working etc
- b) bringing to the attention of the Headteacher (or School Safety Officer) any problems or defects affecting the health and safety of any person on the school premises.
- c) ensuring that all equipment and materials received have adequate health and safety information (e.g. safety data sheets to allow COSHH assessments to be carried out).
- d) ensuring that safe procedures are laid down and used when work of a potentially hazardous nature is undertaken by themselves or others working under their direction.
- e) the completion of portable appliance testing, to maintain electrical equipment in safe condition, submitting the record of results to the Business/Office Manager.
- f) ensuring that due warning is given of any caretaking/cleaning operations that could constitute a hazard to other users of the premises (e.g. signs to warn of slippery floors, uncleared snow or ice etc).
- g) informing the Headteacher or Business/Office Manager as appropriate of the arrival (or expected arrival) of contractors for maintenance work.
- h) informing contractors of any hazards that could affect their health and safety while working in the school (particularly in the light of risk assessment carried out).
- i) the safe use and maintenance of all plant and equipment and the safe use and storage of all materials used for that maintenance (e.g. boiler descalers)

- j) ensuring daily vehicle inspection checks are carried out on all minibuses together with organising maintenance schedules, taxation and MOT requirements. Liaise with the Business/Office Manager as required.

2.8 The Business Manager is responsible for:

- a) ensuring that all line managed staff receive such training, instruction and information as they need to undertake their duties safely and without risk to themselves or others.
- b) bringing the school safety policy and risk assessments to the attention of any cleaning or other staff working under their direction, in so far as it affects the work of those persons (e.g. in use and storage of equipment and materials).
- c) bringing to the attention of the Headteacher (*or School Safety Officer*) any problems or defects affecting the health and safety of any person in the area for which they have responsibility.
- d) ensuring the completion of portable appliance testing, in conjunction with the Caretaker, to maintain electrical equipment in safe condition, together with a record of the results.
- e) carrying out the review of the Health and Safety policy for consideration by the governing body.

2.9 A Safety Representative has the right to:

- a) carry out termly inspections of the premises and submit a written report to the headteacher.
- b) receive any reports of inspections or accident investigations made by the Health and Safety Executive.
- c) represent their membership to the Executive Principal (as representative of the employer) on matters affecting the health, safety or welfare of staff.
- d) represent the staff / union membership on school safety committees.
- e) receive such training as may be necessary for them to perform their duties.

2.10 Catering Manager is responsible for:

- a) ensuring that he/she is familiar with and complies with the school health and safety policy.
- b) ensuring that all kitchen staff receive such training, instruction and information as they need to undertake their duties safely and without risk to themselves or others.
- c) ensuring that they are familiar with the requirements of the Food Safety Act 1990 (and the Regulations published under it) and that they and staff working under them comply with these requirements.
- d) bringing to the attention of the Headteacher (*or School Safety Officer*) any problems or defects affecting the health and safety of any person in the area for which they have responsibility.

2.11 All employees have a responsibility to:

- Take reasonable care of their own health and safety, and that of others who may be affected by their actions at work.
- Cooperate with their employers on health and safety matters.

- Carry out their work in accordance with training and instructions received.
- Inform the employer of any work situation representing a serious and immediate danger, so that remedial action can be taken.
- Familiarise themselves with the Health and Safety Policy and aspects of their work related to health and safety.
- Avoid any conduct which puts themselves or others at risk.
- Ensure that all staff, pupils and visitors are applying health and safety regulations and adhering to any rules, routines and procedures in place.
- Ensure all machinery and equipment is in good working order and safe to use, including adequate guards. They will also not allow improper use of such equipment.
- Use the correct equipment and tools for the job and any protective clothing supplied.
- Ensure any toxic, hazardous or flammable substances are used correctly, and stored and labelled as appropriate.
- Report any defects in equipment or facilities to the designated health and safety officer.
- Take an interest in health and safety matters, and suggest any changes that they feel are appropriate.
- Make suggestions as to how the school can reduce the risk of injuries, illnesses and accidents.
- Exercise good standards of housekeeping and cleanliness.
- Adhere to their common law duty to act as a prudent parent would when in charge of pupils.

2.12 Obligations of Contractors

- a) When the school is used for purposes not under the direction of the headteacher, then, subject to the agreement of the school, the principal person in charge of the activities will take responsibility for safe practice in the areas under their control.
- b) Contractors working on the school premises are required to identify and control risks arising from their activities.
- c) Contractors will inform the headteacher of all potential risks to staff, pupils and visitors.
- d) Contractors will read and comply with any of the school's safety policies or notices as may be relevant.

2.13 Risk Assessments

Responsibility for assessing and controlling risks rests with all personnel within the school in areas over which, to any extent, they have control. However, risk assessment and training shall be performed in consultation with the safety officer and any external consultants/organisations as appropriate.

2.14 Safety Committee

The safety committee will meet as deemed necessary but not less than annually, and is to comprise of:

- School Safety Officer
- Pastoral Support Centre Manager
- Caretaker
- Business/Office Manager
- Nominated governor (as an observer)

- Headteacher
- Teacher specializing in moving and handling

Terms of reference of the safety committee:

Under Section 2 (7) of the Health and Safety at Work Act 1974, the safety committee have the function, in consultation with the staff and pupils they represent, of keeping under review the measures taken to ensure the health and safety at work of the employees and pupils. Specific functions will include:

- a) the study of accident and notifiable disease statistics and trends, so that reports can be made to the board of governors on unsafe and unhealthy conditions and practices, together with recommendations for corrective action
- b) examination of safety audit reports on a similar basis
- c) consideration of reports and factual information provided by inspectors of the enforcing authority
- d) consideration of reports which safety representatives may wish to submit
- e) assistance in risk assessment and the development of school safety procedures and safe systems of work
- f) monitoring the effectiveness of safety procedures and safe systems of work
- g) monitoring the effectiveness of the safety content of employee training
- h) monitoring the adequacy of safety and health communication and publicity in the school

3. THE ARRANGEMENTS

Access and Egress - clearance of ice, snow, leaves - steps etc will be undertaken by the Caretaker and/or groundsperson as necessary . (NB - in the event of snow or ice, the first priority is the clearance of the main path leading to the reception entrance for both pupils and staff, before car parks, playgrounds or roadways). The salt/grit is stored in containers strategically located around the site.

Accident Reporting Any accident or injury is to be reported to the **Head of Care** who is responsible for maintaining the Accident Books (pupil and adult), PAF01 and RIDDOR forms. All significant accidents or incidents to children are reported to the Local Authority on PAF01. All reportable accidents or incidents to staff are reported to HSE (via the Business/Office Manager online, but initially on a RIDDOR form by the Head of Care).

Accident Investigation Accident report forms are assessed by the **Head of Care**, and if an investigation is deemed necessary, this is flagged up with the Business Manager. Investigations are then conducted by either the **Business Manager or Head of Care**, or collaboratively if relevant. Findings are shared with the other party, and further action identified/agreed as appropriate.

Asbestos The presence of asbestos is monitored and managed in school making use of specialist services and advice as necessary. All maintenance personnel receive asbestos awareness training, and information about the presence and location of ACMs is passed to all contractors (who sign the register to confirm this). Management surveys are in place, and are reviewed periodically. More in depth renovation and demolition surveys are conducted prior to any intrusive works. *See separate Asbestos Management Plan & Policy document.*

Audits and Inspections Annual whole school audits are undertaken using a pro forma based on HSE classroom checklist, completed by personnel working in the various areas around school. This is in addition to an inspection by the **Business Manger** (using WCC Audit and Inspection workbook), and the school Governor inspections (using WCC Governor workbook, twice per annum). These are then collated by the Business Manager, and a schedule of actions drawn up. This is reported to the H&S committee, and revisited at subsequent meetings to monitor progress.

Bites / biting incidents Any instance of biting **MUST** be reported to a first aider, and recorded on Sleuth. The first aider will advise follow up action, which may include attendance at hospital. In such instances NHS personnel will then advise on appropriate follow up action, which may include antibiotics and/or vaccinations.

Blood-borne Diseases (see also First Aid - NB gloves **must** be worn, whenever blood or other body fluids are involved) We follow Public Health England's 'Guidance on infection control in schools and other childcare settings' saved in \\10.24.36.3\StaffData\Policies - non curriculum\F-M. Instances of potential exposure (including human bites) are referred to appropriately trained first aid / medical personnel for advice on any further action as may be necessary.

Building Repairs and Contractors (including extensions and new buildings) All contractors sign in at Reception and receive written instructions "*Notice to all contractors*", (See Appendix 1) along with fire procedures. All contractors are issued with lanyards, and wear them where safe and practical to do so. All contractors undertaking work that may lead to exposure to asbestos are required to sign the school's asbestos register, which is held in the main office for inspection by those planning works (including minor works) to ensure that existing asbestos will not be damaged or disturbed. RAMS are obtained from all contractors as applicable (new contractors, minor works, specific projects etc.).

Bullying *See separate Anti-Bullying Policy.*

Button Batteries Ingestion of button batteries can cause serious harm and death. Severe tissue damage results from a build up of sodium hydroxide (caustic soda) as a result of the electrical current discharged from the battery, and not, as commonly supposed, from leakage from the battery. The

sodium hydroxide causes tissue burns, often in the oesophagus, which can then cause fistulisation into major blood vessels, resulting in catastrophic haemorrhage. Even apparently discharged ('flat') batteries can still have this effect, and button batteries pushed into ears or nostrils can also cause serious injuries. Batteries should be stored safely in locked storage until use. When disposing of used batteries care must be taken to prevent students getting access to them.

If it is suspected that a student may have swallowed or inhaled a battery it must be treated as a medical emergency.

Link: <https://www.england.nhs.uk/wp-content/uploads/2014/12/psa-button-batteries.pdf>

Cleaning Warning signs must be used when floors are wet and slippery (and removed when the floor has dried). Suitable flat/non-slip shoes should be worn when cleaning floors. Safety information posters are displayed in the laundry. All equipment, materials and chemicals will be held in appropriate containers and in locked storage as appropriate. MSDSs can be extracted from a folder (clearly labelled in business office) in the event of an emergency. COSHH risk assessments are completed for substances carrying a hazard symbol, and stored electronically.

Competent Person The Trust purchases the services of Worcestershire County Council Health and Safety personnel to act in this role, and be a source of advice and guidance as queries arise. This is in addition to a number of in house personnel with specific training in certain areas (NEBOSH, IOSH, Manual Handling, Team Teach), which varies between settings.

Consultation (Staff / Trade Union Safety Representatives) This post is not to be confused with the Safety Officer who is appointed from within the establishment. Currently there is no representative.

Contacting the Emergency Services Following an accident/injury, the first-aider will contact the emergency services as necessary, or direct a staff member to do so while they tend to the victim. If there is no first-aider immediately available, a common sense judgement will be made by those attending the injured party regarding whether to contact the emergency services.

Design and Technology (including Electronics, Food Studies, Graphics, Resistant Materials and Textiles) – see separate relevant policies, alongside individual risk assessments on the curriculum server.

Display Screen Equipment (VDU's) When new employees are appointed, workstations are assessed in line with the above guidance as part of the induction process. All other users are required to carry out an ongoing self assessment.

Dust Extraction System bins are regularly (half-termly) checked/emptied under the direction of the Caretaker. LEV's annual maintenance/service visits are in place with Airmec, via Place Partnership.

Educational Journeys and Visits The school has a Policy for the Management of Off Site Activities and Visits stored on the curriculum server, and a service level agreement with external off site visits consultants for assistance and advice as necessary. The Headteacher is the EVC Co-ordinator and Residential/Extraordinary Off Site Visit forms are authorised by the Headteacher. Risk assessments for individual visits are completed by the co-ordinator of the visit (stored on the server).

Emergency Lighting is tested weekly by the Caretaker on a random sample basis and the results recorded at the same time.

Expressive Arts (including Ceramics, Dance, Drama, Graphic Art and Music) – see separate policy on the curriculum server for those working at Key Stage 3 and above.

Fire Alarms Regular testing by Fire Safe Services is undertaken and records are held by the Business/Office Manager. Weekly tests of main sounders are carried out and recorded by caretaker.

Fire Appliances (Extinguishers, Fire Blankets and Hose reels) Annual routine inspection and maintenance of fire safety equipment is undertaken, in October, by Walker Fire who issue the Certificate of Conformity with any recommendations for replacement of faulty equipment to the Business/Office Manager.

Fire Evacuation and Fire Drills These are scheduled, at least once a term, by the Headteacher/Business/Office Manager/with day and residential school timings taken into account thus practising different exit procedures. Appointed and trained Fire Marshalls are responsible for premises checks, taking registers, visitor's board and going out slips to the assembly point on the main playground between 9 am – 3 pm or the main car park between 3 pm – 9 am. (Notices are displayed in all rooms detailing assembly points). *See separate fire procedures.*

Fire Prevention. Mainly good housekeeping - see below. The school site is a non-smoking site.

Fire Risk Assessment Place Partnership/Walkers undertake assessments and produce written reports under the service level agreement. These are held in the main office, and reviewed in house on an annual basis. Assessments will be reviewed by Place Partnership or in house as appropriate if there are significant alterations to the school building(s).

Fire Procedures – are displayed in the majority of rooms / areas. Full procedure is stored on the server, listing Fire Wardens and their responsibilities in the event of a fire / fire alarm sounding.

First Aid The school will ensure ample provision is made for both trained personnel and first-aid equipment on-site. A list of qualified first aiders / duty rota is held on reception and in the Head of Care's office. In addition, the School Nurse is on site 5 days per week. NB gloves **must** be worn, whenever blood or other body fluids are involved. *See separate First Aid policy.*

Flammable Substances Aerosols and some paints are kept in fireproof storage, in a shipping container away from the main building.

Gas / Heating Systems Gas installation inspections and soundness tests are undertaken annually by Gas Safe registered contractors.

Good Housekeeping Tidiness, cleanliness and efficiency are essential factors in the promotion of health and safety. Accidents can be prevented by following the guidelines listed below.

- Keep corridors and passageways unobstructed.
- Ensure shelves in storerooms are stacked neatly and not overloaded, and floors of storerooms are unobstructed.
- Keep floors clean.
- Do not obstruct emergency exits.

Clutter is a major cause of accidents, but relatively simple to prevent. Organised working and regular clear-outs can prevent its spread. See also: **Slips, Trips and Falls – Prevention of** (below) also HSE Guidance, available online (<http://www.hse.gov.uk/services/education/slips-in-education.htm>).

Hazardous Chemicals - material safety data sheets are kept in the COSHH Manual (business office) and at point of use as applicable (e.g. main kitchen). These are used to undertake COSHH risk assessments. Stocks of hazardous chemicals are stored in a secure lock box away from the school building.

Information / Publications

All internal health and safety information is available and can be seen by staff upon request. The staff induction process ensures that safety information is highlighted when joining the school and further information is circulated at staff meetings and on whole school professional development days as appropriate. **Health and safety information is also shared via the staffroom notice board, and whole school e-mails.**

Off-site Visits, Field Studies and Outdoor Education Guidelines are held by the Headteacher. Other safety publications can be viewed online with some paper copies held in the main office.

Legionella Monthly temperature testing of all TMVs is undertaken on a rotational basis by the caretaker. Temperatures are recorded, and any issues reported to the Business Manager. Cold water temperatures are also taken at sentinel points each month. Showers are run weekly by the cleaning team, and this action is recorded. Water Risk Assessments are carried out periodically by external companies as appropriate, and reviewed as necessary. Necessary actions identified as a result, such as removal of deadlegs etc., will be carried out by the school's heating and plumbing contractor.

Lifting Equipment Patient hoists and other items of lifting equipment (such as minibus tail lifts) are inspected and serviced every 6 months by specialist external engineers, in accordance with The Lifting Operations and Lifting Equipment Regulations 1998 (LOLER). In the case of patient hoists, these are also examined by the insurance company every 6 months.

Machinery and Plant The Safety Officer/Caretaker liaise with the maintenance contractors to ensure requirements for guarding, inspection and repair (including cleaning machines) are met. Some machines may only be used by specifically trained staff, e.g. band saw. Individual risk assessments are conducted as required.

Manual Handling – In order to provide a safe place to work, training relating to the moving and supporting of either objects or people is undertaken. A designated teacher is qualified to deliver this training, and also consult on plans for individual youngsters. Hoists are provided for physical movement of pupils and further guidance is available in the Manual Handling Policy on the server.

Medicines – The nurse and care staff primarily administer medication although other, appropriately trained first aiders and classroom staff may undertake this duty as required. Medication must be stored in a double locked cupboard in the medical room, or in a locked medicine cabinet in classrooms. See *separate medications policy*.

Monitoring

- Accident records and trends are monitored on an ongoing basis by the Head of Care and Business/Office Manager, and reported to and reviewed by the health and safety committee.
- Results of annual safety audit are reviewed by the health and safety committee and Governors.
- The health and safety policy is formally reviewed every two years by the Business/Office Manager. Minor amendments to specific elements may be undertaken more frequently as circumstances/personnel and regulation changes dictate.
- The safety of children and challenging behaviour are monitored by the Pastoral Support Centre Manager, via the Sleuth system. Incidents and trends are reported to the health and safety committee.

Near Misses Systematic consideration of near misses helps to reduce the number of actual accidents. ALL near misses should be recorded in the near miss book in the Head of Care's office. The near miss book will be monitored by the Business Manager and Head of Care, alongside accident forms.

Playground Safety and Supervision Annual inspections of playground equipment are completed by a RoSPA accredited body, and reports are held in the main office. Operational inspections will be undertaken every 3 months by an RPII qualified person. Daily checks are conducted by the groundsperson and caretaker. In addition, teaching assistants and teaching staff facilitate planned, well structured, play activities. Levels of supervision are appropriate for the needs of the youngsters.

Physical Education See *separate subject policy on the curriculum server*.

Portable Electrical Appliance Testing User visual inspections are undertaken by staff. Regular testing and inspection is undertaken by trained staff for all equipment used on site, in accordance with the latest

HSE suggested testing intervals. An electronic record is held in the main office. Any personal equipment owned by staff and used on the school site must be tested first.

Positive Physical Intervention (PPI) Trained staff will employ PPI techniques only when absolutely necessary, and in accordance with behaviour management plans of individual pupils. All instances will be recorded on the Sleuth system. See separate PPI policy on server.

Protective Clothing - We provide gloves, goggles, overalls, aprons, ear-defenders, dust masks etc. as appropriate for the activities undertaken. Some work related learning studies necessitate the use of safety boots, overalls and gloves which are purchased by the school and loaned to pupils as required.

Public Performances arrangements for the safety of the public (Public Liability Insurance) and Public Entertainments Licence (depending on requirements of District Council) are arranged under the terms of our Service Level Agreements with the Local Authority. The Caretaker or other designated trained person acts as steward and advises on evacuation, fire procedures etc.

Reporting Any practice or condition that is likely to have an adverse effect on health and safety of personnel, or damage to equipment or property, is to be reported to heads of department and such reports are to be recorded and/or passed to the Head of Care or Business/Office Manager as appropriate. The Headteacher will produce an annual health and safety report to the Governing Body. It includes any notable incidents that have happened during the year (e.g. serious accidents) and the conclusions from the annual safety audits, together with actions to be taken.

Risk These are undertaken by the relevant staff and stored electronically on the server. Reviewing risk assessments is an ongoing process, and a new folder is created on the curriculum server each year such that staff are required to move old ones into the new location once review has taken place. Pupil and activity specific risk assessments are undertaken by the class teacher or person running/overseeing the activity. Staff specific risk assessments are undertaken jointly by the staff member concerned and the business manager (or member of SLT as appropriate).

COSHH data for hazardous substances for medical, domestic and catering purposes are available at the point of use at the following locations: medical room, main and residential school kitchens; and general COSHH data sheets and risk assessments are kept in the business office and electronically.

See separate risk assessment policy.

Safeguarding & Child Protection All staff in school receive safeguarding training at a level appropriate to their role, which is updated on an annual basis. There are 3 designated safeguarding leads (DSLs), who act as points of contact for safeguarding concerns. Weekly meetings of DSLs take place to address safeguarding concerns. *See separate Safeguarding Children Policy (Including Child Protection).*

Safety Inspections Periodic external safety audits will be commissioned as required. There are currently no Trade Union Safety Representatives although these would be facilitated if requested. Governor safety inspections are carried out twice per year.

Safety Inspections - Periodic external safety audits will be commissioned as required. There are currently no Trade Union Safety Representatives although these would be facilitated if requested.

School Safety Committee – *See previous information within this policy.*

Science - see separate statement in policy on the curriculum server. Spillage kit to be collected from Subject Leader before lessons if appropriate.

Security –All visitors must report to reception where passes are issued and fire safety information is advised. Reception is manned at all times and access is controlled by key-pad entry. CCTV is installed across the site. *See separate safeguarding policy.*

Slips, Trips and Falls HSE guidance is available at <http://www.hse.gov.uk/services/education/slips-in-education.htm>, and gives many practical suggestions for reducing the risk. Removal of clutter and

prompt clearing up of spills as appropriate should be undertaken by all staff. The Caretaker has appropriate cleaning materials available for use (upon request) as necessary. Advice regarding the wearing of appropriate shoes is given by the Catering Manager and Business/Office Manager to relevant staff.

Stress levels in staff are reduced by using an extended induction programme with mentors appointed to support the employee. Regular meetings take place in addition to appraisals with line managers. Return to work interviews after periods of absence are held to support employees. Whole School training is provided regularly through staffing meeting time and professional development days. The school regularly undertakes staff well-being questionnaires and evaluates the outcomes. Staff are able to access well-being support services through a bought in service. *See separate stress management policy.*

Training Arrangements for health and safety training of new staff are part of the induction process. Essential training requirements are identified during recruitment and on appointment of new staff. Arrangements are made to provide staff with specific training as appropriate including Team Teach, COSHH, manual handling, first aid, food hygiene, asbestos, working at height, educational visit leader, feeding etc. This will be renewed at the recommended intervals. The CPD Leader is the Lead Practitioner.

Working Alone – Ideally, staff should not work alone at school, as there are risks involved such as assault, accident or sudden illness. Indeed, you should carefully consider if you really need to be on site outside of reasonable hours as it is important to preserve a 'work-life balance'. *See separate lone working policy.*

Working at Height Only those who have received the appropriate training will be permitted to use stepladders and ladders. Those who have received the training will be aware of the importance of pre-use checks of any such access equipment.

Work Experience - Health and safety inspections of potential pupil placement providers are carried out by Advance Trust Careers Advisors

Vehicles School minibuses are parked in the bays adjacent to the Beech Centre and/or at the rear of the kitchen area adjacent to the playground - off the road for safe loading, unloading and maneuvering. Maintenance of school vehicles is managed by the caretaker and any defects/problems should be recorded on the trip sheet completed for each journey and passed to the caretaker or business/office manager. *See separate minibus policy.*

Where staff volunteer to use their own vehicles to transport pupils a disclaimer must be signed (see appendix 2) in relation to roadworthy and lawful condition compliance of the vehicle, thus recognising the need to raise awareness of the implications for the school with regard to Corporate Manslaughter and possible breaches of the Health & Safety at Work Act 1974, in addition to staff car insurance requirements. ([Driving at work – managing work related road safety](#))

Car parking The main car park is situated at the front of the Vale school site with additional marked spaces on Four Pools Lane for staff, visitors and parents (Four Pools Lane has marked crossing points). There is also a car park at the rear of school, by the Beech Centre. The car park itself is of a size and layout that dictates heavily restricted speed. Staff supervise vehicle movement as necessary, and pedestrian and vehicular entrances are separate where possible. Kingfisher, Newbridge and Riversides also have car parking on site.

Violent Incident Reporting All violent and aggressive behaviour will be reported on the Sleuth system. See separate behaviour management and PPI policies.

Notice to all Contractors

When working on site please report to Reception in the first instance, who will check the following:-

- that you have signed in
- that you are wearing an appropriate badge with fire procedures identified
- that you sign out and return visitors badge upon leaving

Then report to the Caretaker or Business/Office Manager who will check that:

- you have inspected and signed the school's asbestos register to check that there is no asbestos which could be disturbed in the area(s) where you intend to work
- that you have taken the appropriate actions to ensure the safety of yourself and the pupils and staff on site by:
 - ✓ cordoning off work area
 - ✓ not leaving tools and equipment unattended anywhere in school
 - ✓ using appropriate PPE and other safety measures
- that you have told us any impact your work will have on the safe running of the school
- that we have received up to date RAMS and any required permits to work as applicable

Contractors to check:

- that you leave the site in a safe manner – removing all equipment and debris e.g. materials - screws, metal clips etc., no matter how small.

Appendix 3 Vehicle Declaration Form

In accordance with **Section 3 – The Arrangements: Vehicles** Where staff volunteer to use their own vehicles to transport pupils a **disclaimer must be signed** in relation to roadworthy and lawful condition compliance of the vehicle, thus recognising the need to raise awareness of the implications for the school with regard to Corporate Manslaughter and possible breaches of the Health & Safety at Work Act 1974. (see *Driving at work – managing work related road safety*) in addition to staff car insurance requirements.

The Law:

In April 2008 the Government Corporate Manslaughter Bill came into effect.

In the event that a serious accident occurs, and results in a death, then the police will be looking to see how occupational road risk has been managed asking questions like:

- Was the vehicle roadworthy?
- Was the driver fit to drive / competent?
- Was the journey too great a distance in the time available?

If there is a prosecution, organisations are likely to be prosecuted with breaching the Health & Safety at Work Act 1974 as well at the new offence of Corporate Manslaughter.

To ensure we take all reasonable care to reduce the risk for everyone and ensure any vehicle being used on school business conforms to legislation the following information should be provided:

1. Do you hold a valid Driving Licence Yes No
2. Are your Road Fund Licence and MOT up to date Yes No
3. Do you have valid Business Insurance?
(please attached a photocopy of the certificate) Yes No
4. Is your car regularly inspected by a garage and,
where necessary, regularly serviced? Yes No

Name

Signature.....

Date.....

This form will be held in staff personnel files and must be updated annually with further copies of vehicle insurance.
